

Create a Binance Tax Report API

In this tutorial we will show you how you create a Binance Tax Report API and how to connect it with your Cointracking account.

1 Navigate to https://cointracking.info/import/binance_api/

2 Click on "<https://www.binance.com/en/usercenter/settings/api-management>"

CSV Import Legacy CSV Commission Import Legacy API Import

and transfers them automatically into your CoinTracking account.
: 10 - 180 minutes

and select API Management (<https://www.binance.com/en/usercenter/settings/api-management>)

Restrict access to trusted IPs only (Recommended)"

18.202.90.187 18.203.26.123 34.241.219. Copy all IPs and click on Confirm

and click on "Save"

once job"

used more than regular spot trades (strongly recommended)

RESTRICTIONS !

the API security instructions

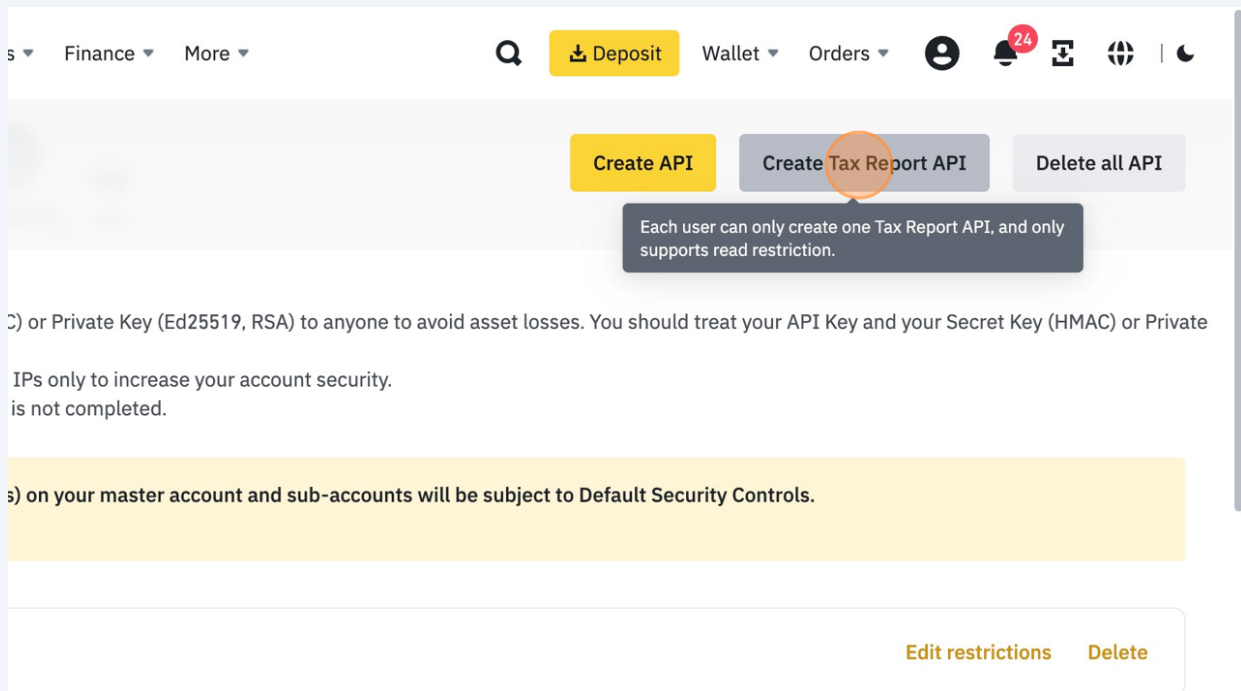

Binance permits access to the following data (?)

- Trades
- Deposits
- Withdrawals
- Fees
- Commission

Keep in mind that you can only create one Tax Report API!

Log into your Binance account and click on "Create Tax Report API"

Create API

Create Tax Report API

Delete all API

Each user can only create one Tax Report API, and only supports read restriction.
